

Vision and Purpose:

Our vision is to develop Granta into the single hub for all the healthcare needs of our practice members (patients). We want to guarantee that, whatever their needs and the social or healthcare setting they are in at the time, our members will always have the support and care that they need from our team.

We want to take on full responsibility for working with our practice population to promote health when they are well and to deliver the care needed when they fall ill. We would like to see Granta staff take pride in delivering a standard of care to our practice members that they expect for themselves and their families.
